Purpose: EDCP 108B is designed to empower you to become a more active learner in college and in life. The content is based on proven strategies that will enable you to be successful. By examining your prior and current learning strategies, you will be encouraged to make wise choices to create new pathways for growth now and in the future. YOU will be in the “driver’s seat” to stay “on course” in your journey to reach all your chosen destinations. ENJOY THE RIDE!!!

COURSE OBJECTIVES: In this course you will learn how to do the following:

1. TAKE CHARGE OF YOUR LIFE. You will learn how to accept personal responsibility and gain more control over the outcomes and experiences that you create in both college and life.

2. INCREASE SELF-MOTIVATION. You will learn to create greater inner motivation by, among other things, discovering your own personally meaningful goals and dreams.
3. **IMPROVE PERSONAL SELF-MANAGEMENT.** You will learn numerous strategies for taking control of your time and energy, allowing you to move more effectively toward reaching your goals.

4. **DEVELOP INTERDEPENDENCE.** You will learn how to develop mutually supportive relationships with people who will help you achieve your goals, as you assist them to achieve theirs. You will learn more about yourself within the context of being a member of the University of Maryland College Park community.

5. **INCREASE SELF-AWARENESS.** You will learn to understand and revise your self-defeating patterns of behavior, thoughts, and emotions. You will identify your learning style in order to use study strategies that will work for you. In addition, better self-understanding will help you to make wise choices to lead to success in college and in life.

6. **MAXIMIZE YOUR LEARNING.** You will learn to develop your own learning system and master effective study skills. You will learn how to raise your grades in college by improving essential skills, such as reading, note-taking, studying, and taking exams.

7. **DEVELOP EMOTIONAL INTELLIGENCE.** You will learn how to use your emotions in order to support your goals and dreams, as opposed to not taking responsibility and allowing yourself to be ‘hijacked by your emotions’ (Downing) and to make unwise decisions that get you off course.

8. **BELIEVE IN YOURSELF.** “The foundation of anyone’s ability to cope successfully is high self-esteem. If you don’t already have it, you can always develop it.” (Virginia Satir)

**LEARNING OUTCOMES:** By the completion of the course, students will be able to:

1. Identify and apply the Wise Choice Process to their college experience. Important concepts include: Wise Choice Process, Victim/Creator Language, Self-Talk, and Accepting Responsibility. (TAKE CHARGE OF YOUR LIFE)

2. Describe and develop self-management strategies for achieving academic success. Important concepts include: Time Management, Procrastination, Motivation, Goal Setting, and SMART Goals. (INCREASE SELF-MOTIVATION and IMPROVE SELF-MANAGEMENT)

3. Explain interdependence and identify helpful campus resources. Important concepts include: Academic Policies, Career Exploration and Resources, and Building a Network of Support. (DEVELOP INTERDEPENDENCE)
4. Identify their personal learning styles and implement a personal set of learning strategies that will lead to success and lifelong learning. Important concepts include: Active Learning, Study Skills, Exam Preparation Techniques, Brain-Based Learning, and the CORE System. (INCREASE SELF-AWARENESS and MAXIMIZE YOUR LEARNING)

5. Identify personal strengths and growth-edges. Important activities include: writing journals and reflections, comparing pre- and post-test self-assessment results, and developing a self-care plan. (DEVELOPING EMOTIONAL INTELLIGENCE and BELIEVING IN YOURSELF)

Procedures: Each class you take at the university should have a course syllabus that explains the purpose of the course; lists assignments, projects, and readings to be covered; and lists examination and assignment due dates, times, and locations. This syllabus tells you what you need to do in order to complete this course. Instructors write a course syllabus to help you know what they expect of you. This syllabus is our contract for the semester. It clearly spells out the policies, procedures, and expectations. Read the syllabus for each of your courses. Mark important dates on your calendar!

Some class sessions will include small group discussions/cooperative learning. These sessions will focus on implementing the techniques presented in lecture.

Attendance (UMCP Policy)

Class attendance is essential and expected. The university has instituted a new attendance policy related to medically necessitated absences (available at http://www.president.umd.edu/policies/docs/V-100G.pdf). The general attendance policy is available at http://www.testudo.umd.edu/soc/atedasse.html. The information contained in this syllabus adheres to both these policies.

Excused absences will be provided on a limited basis for illness (self or dependent), religious observations (where the nature of the observance prevents the student from being present during the class period), participation in university activities at the request of university authorities, or compelling circumstances beyond the student’s control. Absences will only be excused when the student has made a reasonable attempt to inform the instructor prior to class, except in case of emergency.

For a medically necessitated absence from a single class session, students may submit a self-signed note to me. Such documentation shall be honored as an excused absence unless the absence coincides with a Major Scheduled Grading Event (i.e. final exam or project). Any student who wishes to be excused for an absence from a single class session due to a medically necessitated absence shall:
  • Make a reasonable attempt to inform the instructor of his/her illness prior to the class;
  • Upon returning to class, present the instructor with a self-signed note attesting to the date of the illness. Each note must also contain an acknowledgment by the student that the information provided is true and correct.
Students who experience a prolonged absence (multiple consecutive absences due to the same illness) or an illness during a Major Scheduled Grading Event (i.e. final exam) shall be required to provide written documentation of the illness from a health care provider. In cases where written verification is provided, the health care provider shall verify dates of treatment and indicate the time frame that the student was unable to meet academic responsibilities.

It is the responsibility of the student to inform the instructor of any intended absences for religious observances by the end of the drop/add period. Students claiming excused absence must apply in writing and furnish documentary support for their assertion that absence resulted from one of the above causes. For both excused and unexcused absences, students are still responsible for coursework missed and for turning in assignments on time.

Attendance: (Additional Information for EDCP108B)

1. This class meets once a week for the semester. Attendance is extremely important and will be reflected in your attendance/participation grade. To be considered present, you may not miss more than 10 minutes of class. Two (2) points will be deducted for each class session missed.

2. Be on-time for class and stay for the entire session. What you get out of this course, or any other course, is directly related to the time and effort you put into the course.

3. Absences: An excused absence is permitted and must be verified with documentation. If you are absent from a class, it is your responsibility to get together with another student from the class. If you still have questions, call or email your instructor to learn what you missed.

4. If you have any questions about an assignment or lecture material that you do not get clarified before, during, or after class, you may call 314-7702, email, or make an appointment with your instructor.

Late Policy: We expect all assignments to be turned in DURING CLASS TIME on the due dates. Twenty percent will be deducted for late assignments. Assignments will not be accepted after one week from the due dates, unless students have documented excuses.

All assignments are to be typed, double-spaced, and submitted in hard copy (unless otherwise specified). In addition, please save all your work on your computer in case the submitted copy gets lost/stolen/requires review. (THIS IS IMPORTANT FOR ALL YOUR COURSES!!) Please try to proofread your assignments carefully before handing them in.

Accommodations for Students with Disabilities If you are a student with a documented disability and wish to discuss academic accommodations for this class, please contact me during the first two weeks of class. Submit your documentation at that time.
Academic Integrity

As an academic community, the University is committed to the principles of truth and academic integrity. The University has a nationally recognized Honor Code, administered by the Student Honor Council. The Student Honor Council proposed and the University Senate approved an Honor Pledge. The University of Maryland Honor Pledge reads:

“I pledge on my honor that I have not given or received any unauthorized assistance on this assignment/examination.”

As a student at this University, it is your responsibility to help uphold these principles for yourself and for other students. Unless you are specifically advised to the contrary, the Pledge statement should be handwritten and signed on the front cover of your final exam. Students who fail to write and sign the Pledge will be asked to confer with the instructor. If you are aware of acts of academic dishonesty (cheating, fabrication, plagiarism, or facilitating academic dishonesty), either your own or a classmate’s, you are responsible for challenging these acts and reporting them to the Student Honor Council.

Confidentiality Personal issues in individual meetings and class discussions are to remain confidential. Class members are expected to respect their peers’ contributions during class discussions.

Cell Phones As a courtesy to us and to the other students in the class, please turn off all cell phones, pagers, laptops, or wireless devices before coming to class.

Course Rules for Success

In addition, notes that are well-organized are easier to remember. Therefore, we are asking you to take notes in each class, so you have key information to ensure your “ride to success” in EDCP108B. At times, we will ask you to turn in your notes for review to see if you are staying “on course.”
