>\$120,000	\$950	\$9500

PART TIME PROGRAM

Flat rate:	\$425	\$4250
------------	-------	--------

Families who enroll more than one child in the part time program will pay \$3830 (\$383 per month) for any subsequent children.

Families who enroll more than one child in the full time program will pay at the next lowest income category for the second child. Families with more than two children enrolled full time will pay at the same rate for other children as for the second child.

The total 10-month tuition is paid in monthly installments from September through June. These installments will be the same each month. Parents who enter mid-year still have to pay a full month's tuition through June as per the terms of the contract. Parent tuition pays teachers' salaries and other charges made to the Center from the University based on its self-support status.
