COE FACULTY TECHNOLOGY FELLOWS
2016/2017: FOCUS ON THE ONLINE CLASSROOM
APPLICATION

OVERVIEW

The Faculty Technology Fellows program began in 2009 under the name, Expanding the Toolkit: Innovative Teaching with Technology, as a collaboration between CTE (Center for Teaching Excellence), OIT (Office of Instructional Technology) and the College of Education. Each year's cohort has built on the successes of the previous year, expanding the number of faculty members in the College who utilize technology to achieve their instructional, research and community building goals. Technology Fellows meet on a regular basis to share ideas and develop expertise, while serving as a pool of resources for other instructors. Most importantly, the initiative has inspired a grassroots movement, impacting the culture of the College as a place where innovation and collaboration around educational technology are valued and encouraged.

This year the focus will be The Online Classroom. Fellows will work to move a portion of their courses into a blended, flipped or fully online format. They will discover creative, engaging and effective online mechanisms to enhance their students' learning and their own satisfaction and effectiveness.

APPLICATION

Please answer the following questions to help us understand your personal goals for the year:

1. Classes that you will teach or organizations that you will help facilitate during the 2016/2017 academic year

2. Learning goals and outcomes you hope to enhance through an online presence

3. Tech tools that you think might help you accomplish your goals (although, new ideas will emerge throughout the process)

4. Any final thoughts or comments

PLEASE SEND YOUR APPLICATION TO:
Helene Cohen (hkcohen@umd.edu)
