Online meeting: Using Google Hangouts

Step 1. Setup Account

Step 2: Join hangout

Step 3: Get all your questions answered to join the program!

Step 1: Set up Account. To use Google Hangouts you need a Google account (with a Google+ profile).

1. Create a gmail account, if you don’t have one. It will ask you to create a UserID and other specific information. Link http://mail.google.com/

2. Check that your computer is ready to join the hangout before the meeting starts. To test it, you can start a hangout from your Google+ page by clicking a button on the right side of the screen that says 'Start a Hangout!' This action takes you to a test page, where Google starts your webcam and microphone, but no one else can see your video broadcast. You also have to install a browser plug-in, which works with Windows XP or higher, Mac OS X 10.5 or higher, or Linux.
Before you enter a hangout, Google allows you to preview what you'll look and sound like to other members of the hangout.

Step 2: Join hangout

Now that you are set. There are several ways to get to the meeting.

a. You can join our meeting by copying this url into your browser or simply click the URL link.

https://plus.google.com/hangouts/_/extras/talk.google.com/msmathmasters

b. Check the right side of your Home page to see hangouts that you've been invited to. Simply click the **Hang out** button next to an invite to join.

Notifications: In the Google Bar, top right corner of the page you will see a number next to your name. If you are signed in chat, you'll get a chat notification that you've been invited to the hangout.
Step 3: Get all your questions answered to join the program!

You will be able to talk or chat. You can choose to use video or not, too. During the meeting:

- You can manually adjust the layout by clicking on any of the smaller video broadcasts to see that stream in the largest window instead.

- One large button beneath the video windows allows you to send text chats to the whole group during the hangout. You have to click the Chat button to read any messages that group members might have written.

- You can invite other teachers to join, as long as they have or create a google+ account.
