Regulations permit child care providers to give prescription and non-prescription medication to children in care under certain conditions. Prior written permission from the child’s parent is a requirement. If possible, arrange the time of dosage so the child receives the medication at home. Fill out a separate form for each prescription or non-prescription drug.

**NON-PRESCRIPTION MEDICATION**: A child may receive only one dose per illness, except acetaminophen (Tylenol) and topical medication. A licensed health practitioner must approve the medication and dosage for the child to receive more than one dose.

**PRESCRIPTION MEDICATION**: Prescription medications must be in a container labeled by the pharmacy or physician with the child’s name and expiration date. The child may receive medication only according to the written instructions of the health practitioner or the instructions on the medication label.

Name of Child: ___________________________________________________________

This medication is being given for the following condition(s):

<table>
